

Read Me : Assignment 3

- [] The folder contains 2-java, 2-pdf's and 1 text-file namely,
1. Problem1 - .java file for Perfect Hashing.
 2. Problem2 - .java file for Simple Uniform Hashing with Chaining.
 3. records.txt - .txt file containing the Student records.
 4. Report.pdf
 5. Readme.pdf

[] Problem-3 can be done using the other two .java files by changing the following boolean variables.

```
final static boolean MENU_DRIVEN_PROGRAM = false;  
final static boolean STATISTICAL_ANALYSIS_PROGRAM = true;
```

[] Please specify the path of the records.txt file in the variable "*fRecordFileName*" as per the system.
e.g. fRecordFileName = "/home/michail/Java/records.txt";
